About me (Free-time)

Principle for me is: **Less is More** I see possibilities when others see impossibilities.

<https://rickardcedergren.com/wp-content/uploads/2024/12/Om-RC.png>

My primary drivers are

- I do it until its done (fail fast) - Deliver a solution only
- I like for others to move forward • Sustain and protect trust from external partners (customers etc.), staff and owners
- Create visibility (typically trough KPIs) so others can understand
